PROFESSIONAL SUMMARY

Technical Support Specialist and Software Engineer with experience in IT support, troubleshooting, and web development. Skilled in maintaining systems, assisting users, and building efficient software solutions. Committed to continuous learning and improving technology services

EDUCATION

Bachelor's Degree in Information Technology

Syrian Virtual University – Damascus, Syria 2023 – 2026

Diploma in Network Engineering

Damascus University – Damascus, Syria 2021 – 2023

PROFESSIONAL EXPERENCES

- **IT Engineer | Ministry Of Defence– Damascus, Syria | 01/2026 – now**
 - Design, develop, and maintain web applications using the MERN Stack
 - Build and manage RESTful APIs to support application functionality and integration.
 - Design, implement, and maintain comprehensive network for the new building.
 - Implement back-end services, database schemas, and server-side logic with Node.js and Express.js. Support users and coordinate with IT teams.
 - Install and configure routers, switches, and other network equipment.
- **IT Support | Administration of Arbin City– Damascus, Syria | 04/2024 – 10/2025**
 - Resolved and escalated 3 complex network issues, preventing system failures and reducing downtime.
 - Install and update software, operating systems, and security programs
 - Implemented automated daily backups for 2 TB of organizational data, ensuring 100% recovery capability during system failures.
 - Provided technical support and conducted training for 5+ staff members, reducing recurring support requests by 20%
- **Software Engineering Teacher | Abd Al-mounaim High School & Technical Computer College – Damascus, Syria | 08/2023 – 04/2024**
 - Designed and implemented curriculum in software engineering, programming, and computer systems for 400+ students, achieving a 92% course completion rate and aligning content with academic standards.
 - Supervised 10+ student coding projects, providing mentorship that improved debugging efficiency by 30% and increased project success rates.

TRAINING

internship| full Stack Developer -AKF - (Bytes4Future) Damascus,Syria|8/2025 -12/2025

- Participated in professional training sessions covering English language proficiency, soft skills, time and task management, and leadership development.
- Executed practical projects demonstrating application of front-end and back-end technologies.
- Engaged in workflows, enhancing communication and teamwork abilities.
- Developed hands-on skills in HTML5, CSS3, JavaScript, React and UI/UX design using Figma and React Native for front-end, and Node.js for back-end services.
- Integrated and managed MongoDB databases to support dynamic content and user data.
- Led team discussions and task delegation, demonstrating team leadership and collaborative decision-making.

VOLUNTEERING

Volunteer | Documentation Department -Engineering Creative Team (ECT) Damascus, Syria | 3/2026 - Present

- Document and organize case study data by collecting and recording accurate information to support project monitoring and evaluation.
- Prepare and maintain structured reports and archives of case studies to ensure proper documentation and easy access for analysis and future project planning.

Volunteer – Dream Foundation – Damascus, Syria | 3/2025 – Present

- Participate in volunteer initiatives and community activities aimed at supporting education, youth development, and social impact.
- Assist in organizing events, programs, and outreach activities that promote innovation, teamwork, and community engagement.

Volunteer | Project Management - Mari Foundation Damascus, Syria | 5/2025 - 1/2026

- Participated in extensive training sessions on project planning, coordination, and execution.
- Engaged in skills development workshops to improve leadership, time management, and organizational abilities.
- Gained practical experience in managing project timelines, working within a team, and solving challenges to ensure successful project delivery.

- **Field Volunteer | Ephrem Patriarchal Development Committee – Damascus, Syria | 06/2020 – 10/2023**

- Entered field records with high accuracy to support monitoring and evaluation.
- Planned and implemented regional strategies in cooperation with the project team, adhering to deadlines.
- Managed dialogue sessions and workshops to raise community awareness on protection issues.
- Coordinated training sessions and achieved a high follow-up rate among participants.
- Handled logistics and administrative support for project activities.

TECHNICAL SKILLS

- Frameworks & Tools: Flutter, Firebase, Git & GitHub, Figma
- Software Engineering Concepts : OOP, SOLID Principles, Design Patterns, MVVM
- **C#:** Developed desktop and web applications .
- Networking : CCNA (Routing, Switching, IP, Troubleshooting)
- Database SQL
- Data Structure
 - C++ – Implemented data structures and algorithms to solve 100+ competitive programming problems

SOFT SKILLS

- Project Management
- Team Collaboration
- Leadership & Communication
- Data collection and analysis.
- Report writing

LANGUAGES

- Arabic
 - Native
- English
 - up-Intermediate
